

Survey to all Residents – (Aug/Sept) - idea

- Suggest we field a **research survey** to all residents to get input on major topics impacting us
- Suggest we use SurveyMonkey – cheap/fast/easy survey software
 - For people who cannot do computer work: a few people can turn in paper and we can consolidate it in digitally (enter the info for them)
- Eve Murto can set it up and field it (with others of course) – not difficult
- Who: Invite all Residents plus all Owners ?
- What: Questionnaire development team (Eve, Dag, John, Anne (reviewer) ; others ?)
- Topics to cover in the questionnaire: (work with Board to get all topics in there)
 - Use of lawns (meadow option; zones and keep green; artificial lawn)
 - Water reduction target (meet City/County Goals vs Deeper cuts)
 - Bocce court in courtyard (an option)
 - More benches /casual lightweight furniture on lawns and in courtyard – more social space as is
 - Other configurations of courtyard (other proposals)
 - Firepit option
 - Awning idea (outside of Commons Room)
 - Use of rim space (SW corner has space)
 - Other?
 - Other?
 - Other?
